EDUCATION

University of Colorado Boulder Expected May 2027
Bachelor of Science in Information Science | Minor in Business Analytics
GPA: 3.7/4.0
Relevant Coursework: Programming for Information Science I & II, Statistics for Information Science, Information Ecosystems, Quantitative Reasoning, Survey Research Design, Principles of Marketing, Principles of Management, and Calculus I

HONORS AND AWARDS

Dean's List, Fall 2024 and Spring 2025
Best Project, CU Boulder Engineering Design Expo - Selected from 30+ student teams and evaluated by industry professionals.

TECHNICAL EXPERIENCE

Ampra AI | Remote April 2026 - Present
AI & Automation Intern

- Research and evaluate emerging AI tools, automation platforms, and agent-based workflows for potential use in small and midsized businesses.
- Build and test automated business workflows using tools such as n8n, Claude, ChatGPT, Codex, Google Cloud, and Google Apps Script.
- Develop educational materials explaining practical AI applications, risks, and implementation strategies for non-technical business audiences.
- Designing a capstone automation solution that translates business discovery findings into clear recommendations and actionable next steps.

DATA & TECHNICAL PROJECTS

Student Stress and Coping Survey Analysis
Survey Research Design | University of Colorado Boulder

- Conducted 12 qualitative interviews and designed a Qualtrics survey examining academic stress and coping behaviors among university students.
- Cleaned and analyzed survey data to identify patterns in workload, stress levels, and coping strategies.
- Selected as a lead presenter at the CU Boulder Information Science Fall 2025 Showcase.

MLB Payroll and Team Performance Analysis
Programming for Information Science II | University of Colorado Boulder

- Cleaned and merged baseball payroll and performance datasets using Python and Pandas.
- Applied statistical analysis to investigate relationships between team spending and competitive performance.
- Created visualizations communicating payroll trends and performance trends across MLB teams.

CU Computer Science Course-Scheduling Ecosystem Analysis
Information Ecosystems | University of Colorado Boulder

- Interviewed university course schedulers and analyzed spreadsheets, enrollment information, institutional requirements, and communication workflows.
- Identified challenges involving fragmented coordination, undocumented knowledge, and competing scheduling constraints.
- Developed recommendations to improve information sharing and reduce manual coordination.

CERTIFICATIONS & TRAINING

Anthropic Academy

- Building with the Claude API**, Certificate of Completion — 2026**
- Introduction to Agent Skills**, Certificate of Completion — 2026**
- Claude Partner Network Learning Path **— In Progress, 2 of 4 courses completed**

SKILLS

Programming & Data: Python, R, SQL (Basic), Pandas, Matplotlib, BeautifulSoup, Statistical Analysis, Data Cleaning, Data Visualization, Web Scraping
AI & Automation: Claude, Codex, n8n, Google Apps Script, Prompt Engineering, AI Agents, Workflow Automation
Research & Analytics: Survey Design, Qualtrics, Qualitative Interviews, Data Interpretation, Business Process Analysis, Data Storytelling
Tools & Technologies: Tableau, Microsoft Excel, Jupyter Notebook, VS Code, GitHub, Canva, Google Workspace, HTML, JSON, CSV, APIs
